

SAFETY MANAGEMENT SYSTEM DISTRICT 105a

District Governor

It is the responsibility of the district governor to implement a safety management system and to instil in his cabinet the importance of monitoring the safety performance of the clubs within the district. He should re-enforce this message on his club and zone visits.

District Health and Safety Officer

The District Health and Safety Officer will aid the district governor to implement the safety management system by providing health and safety advice to clubs and other district officers as required. He will monitor the risk assessments being carried out on activities throughout the district. He will ensure by regular contact with clubs the importance of appointing club safety officers and to ensure they run all activities in accordance with the Multi-district Health and Safety Policy.

Region/Zone Chairs

The region/zone Chairs should assist and support the District Governor and District Officer in the implementation of the safety management system by ensuring clubs in their region/zone carry out all the health and safety requirements of the District Health and Safety Officer.

Club Health and Safety Officer

It is the responsibility of this officer to ensure all club activities are carried out within the guidelines of the Multi District Health and Safety Policy, and obtain competent advice on carrying this out.
