

District Environment Project & Queen's Diamond Jubilee 2012

District Environment Project in conjunction with Woodland Trust to celebrate the Queen's Diamond Jubilee by sponsoring the planting of an acre of brand new woodland within the heart of our district 105A at Heartwood Forest, Sandridge, Hertfordshire. We require £10,000 to cover the planting of 700-1000 trees, their maintenance and installing of a commemorative Lions plaque. The cost per tree is roughly £10. We are requesting contributions of £100+ per club and need your urgent support to complete this special project.

Heartwood Forest will one day be the largest continuous native forest in England. Our sponsorship of an Acre Grove will help create a forest for the future and the grove will be identified on a map and marked by a post carrying a plaque with our dedication.

This project will not only preserve and protect our environment now but also increase awareness of Lions in our communities. Please send your donations to our District Treasurer, cheques made payable to LCI DISTRICT 105A (back of cheque with "Environment Project")

Please join our lasting celebration of the Queen's Jubilee by supporting the planting of Lions Grove.

Remember. Reduce. Reuse. Recycle. Reforest
